

FOR ATHLETIC ADMINISTRATORS

One license per team. **Nothing per seat.**

College Hall is the Path environment for university tennis programs: one shared workspace for the roster, the calendar, communication with athletes and families, and the recruiting pipeline. Here is what the department is approving, and what it commits you to.

WHAT YOU ARE BUYING

One annual license, against a purchase order

No per-seat pricing, no monthly renewals, no usage tiers. The Department license covers both programs on one agreement and one invoice.

Unlimited staff seats

Head coach, assistants, volunteers, athletic trainers, academic advisors and operations staff, all at no additional cost.

The program owns its data

Roster, prospect records, evaluations and communication history belong to the institution and export at any time in standard formats.

Turnover does not reset you

When an assistant moves on, the record stays with the program. The next hire starts with the history, not from zero.

PRICING

LICENSE	COVERS	PER YEAR	INCLUDES
Program	One team, men's or women's. Up to 20 active roster athletes.	\$4,990	Full recruiting operations, roster, calendar, communication, season planning, external coach and family access, unlimited staff.
Department	Men's and women's teams under one athletic department.	\$7,990	Everything in Program for both teams, shared staff, department view, one agreement and one invoice.
Enterprise	Athletic department, conference or federation.	From \$15,000	Everything in Department, SSO, data import, priority SLA, custom onboarding.

Prices in USD, billed annually against a purchase order. One-time setup of \$1,500 covers configuration, roster and prospect import, and staff training. Recruits in the pipeline never count toward the roster cap. Video and wearables/readiness are optional add-ons; recruiting is included in every license.

WHAT ONBOARDING ASKS OF YOU

- Roster and existing prospect list, in whatever format you have. Import is done by Path.
- About two hours of staff time for training, scheduled around the season.
- A department contact for the agreement and invoice. Nothing to install; the environment is browser based.

COMPLIANCE AND RATINGS, PLAINLY

Path surfaces and logs recruiting activity as context: contact windows, dead periods, interactions and document checklists. Path does not certify compliance; confirm requirements with your compliance office.

Ratings belong to their providers, shown with attribution and linked to the source; Path never computes its own. Path is independent and not affiliated with or endorsed by the NCAA, the NAIA, the NJCAA or any governing body.
